# Travel tips from our current students!

Delay repay – see when you can get a refund

<https://www.southernrailway.com/help-and-support/journey-problems/delay-repay-compensation>

Booking tickets in advance can save you lots of money!

Using trainline app, southern rail website, or national rail enquiries – all of these work and give correct information.

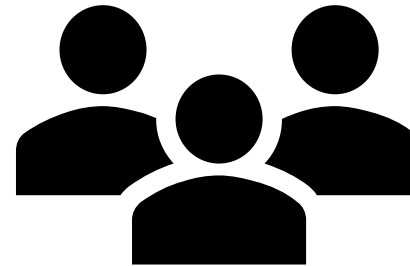

- Applying for a refund or complaining about a train journey is easier if you have an account/app

# Travel tips from our current students!

Time specific tickets – you can sometimes buy cheaper advance tickets online, but the ticket can only be used on a specific service at a specific time. Consider if you can get to the station to catch the service before committing to buying the ticket. You can't get a refund or use it for a different service.

Travelling off-peak vs peak hours - <https://www.thetrainline.com/train-times/off-peak>

Buses do not stop at every bus stop automatically. You need to put your arm up if you want the bus to stop! And if you want to get off the bus, you need to press a button
